

FAMILIA FALASCO

— SINCE 1939 —

THE PERFECT WINELAND

UCO VALLEY

Cool climate between 14 and 15°C

High Altitude vineyards 900
to 1500 meters ASL

Shallow, alluvial soils, with
gravel and boulders

High quality grapes, with high
acidity and great ageing potential

NORTHERN VALLEY

Irrigated by river Tunuyán

The most productive
wine region in Mendoza

Alluvial soils that present clay,
silt and sand

Altitude 640 to
750 meters ASL

This is the capital
region of Bonarda

SOUTHERN VALLEY

Irrigated by river Mendoza

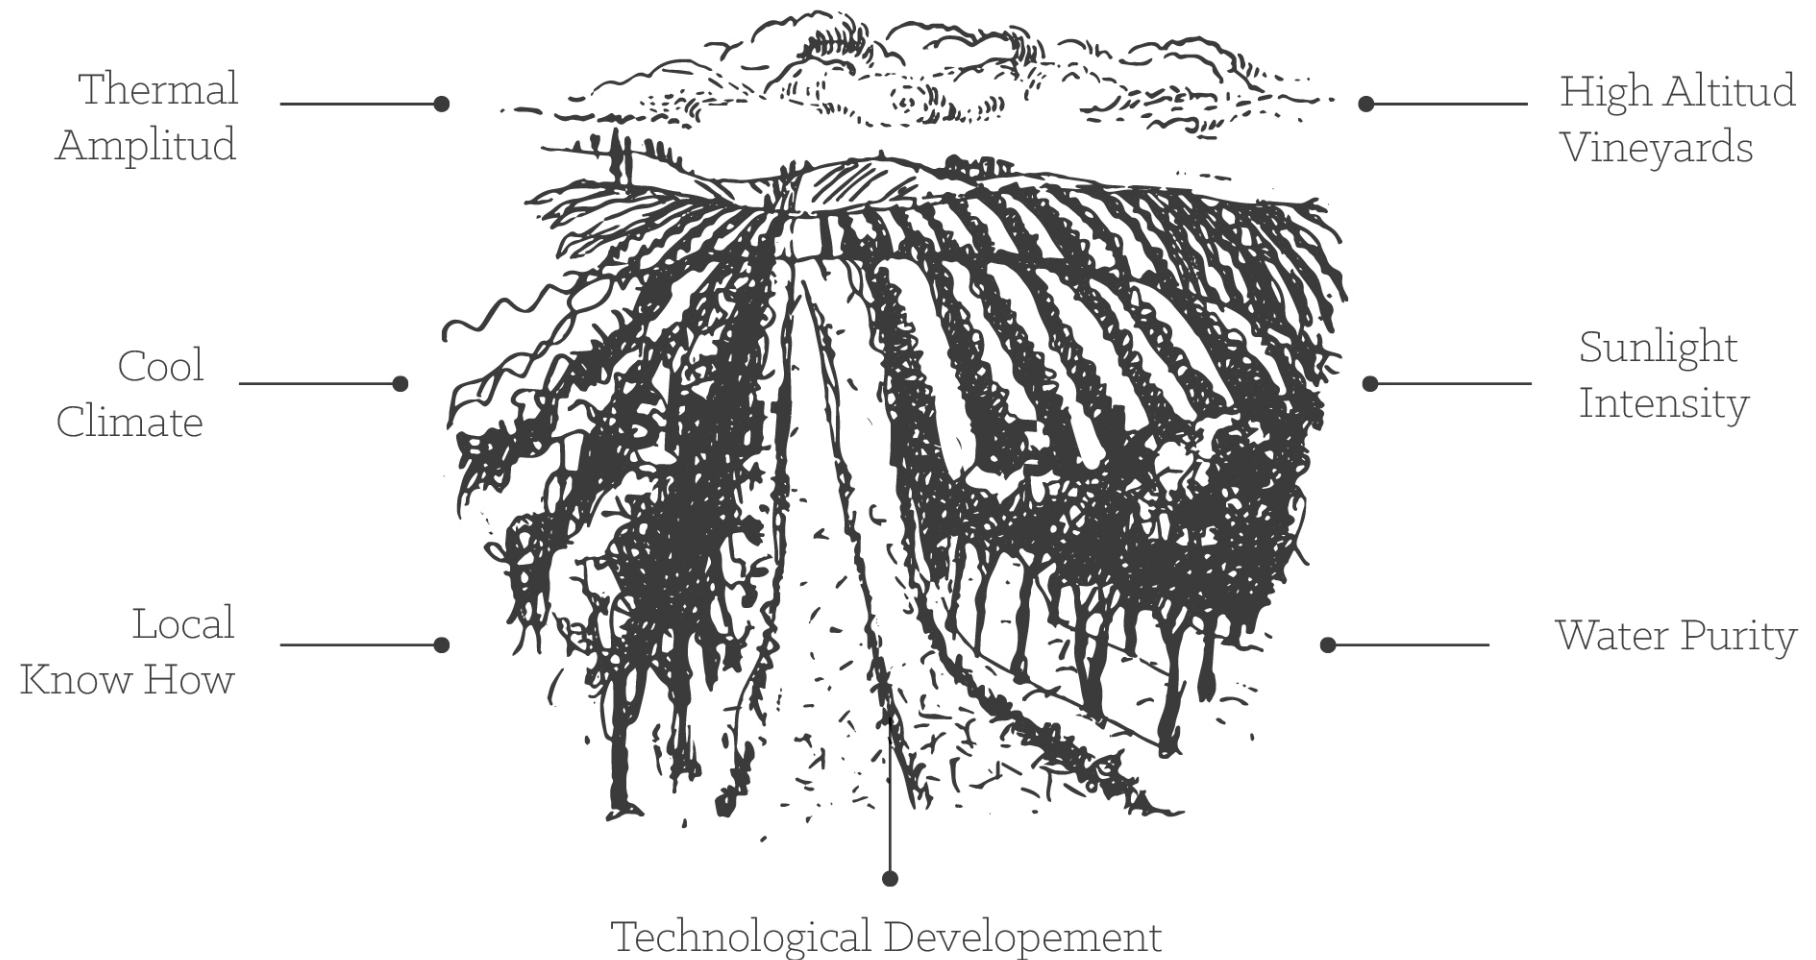

Altitude 700 to 1000 meters ASL

This region presents shallow, alluvial
soils marked by gravel and boulders

Climate boosts the tannins and color,
allowing to have a long ageing

AN IDEAL COUNTRY FOR VITICULTURE

CEPAS

750ML
